The pending claims in the application are 1-23, which are in allowable condition.

Claims 1-3 are allowed, as the prior art of record does not teach or suggest a method of excitation for use during an NMR examination comprising adiabatically conditioning at least a portion of a body via a damping by apodization of magnetization flip angles in preparation for an NMR examination, in combination with the remaining limitations of the claims.

Claims 4-23 are allowed. The reasons for allowance have been provided in the previous Office action dated October 8, 2004.
